

Hydraulic Tirfor™ - Mounting Configuration

Increased capacity :

Using the sheave block technique, the capacity of the Hydraulic Tirfor® can be increased by a factor of 2, 3, 4 or more. They can be used to lift, pull and position loads over great distances depending on the wire rope length. This special mechanism maintain a constant lifting or pulling capacity .

Possible arrangements :

The Hydraulics Tirfor® can be used in various configurations, up to 4 hoists at the same time. Option: the load capacity of the Tirfor® system can be increased by using sheave blocks.
